

2024 IA-NREC ISLPP Registration Form

The integrity of nutrient management is based on accurate analysis of pH buffer pH, P and K used in the generation of recommendations. With increasing interest in nutrient management, Iowa NREC has developed the **Iowa Soil Laboratory Performance Program (ISLPP)**.

The program is based on the double-blind submission of standard reference soils for the assessment of laboratory performance. Lab proficiency will be evaluated three (3) times through 2024:

- Double-Blind soil samples will be submitted once in the spring season and twice in the fall season.
- Double-Blind soil results of individual labs will be provided anonymously with completion of the spring and fall sample ISLPP submissions, and a year-end summary.

Enrollment - Program Costs / May 17, 2024 Deadline *(Select Box With Option)*

ALP-Enrolled Lab: \$1,800

Non-ALP Lab: \$2,200

Late Fee: \$500

Program Registration:

Regardless of payment option, fill out this form and send to both: info@alta.ag and robert.miller@cts-iterlab.com

Payments by Credit Card:

(1). Enter the credit card information below and email the PDF to: info@alta.ag

(2). Pay online using this link: <https://my-site-104478.square.site/>
